HAS JAPAN AN EYE ON CHINA?

St. Petersburg Paper Believes Japs Are Making Effort To Secure Protectorate.

St. Petersburg, July 24.—The Novo Vremya today published details of an alleged anti-dynastic movement in Southern China, ascribing it to Japanese investigators who, the paper says, are busily preparing for a Manchurian dynasty in China, the same fact which has just overtaken the emperor of Corea. Continuing, the paper says that in contravention to the supplementary provisions of the China-Japanese treaty of 1905, which defined the regions where foreigners including Japanese, shall be permitted to reside, Japanese agents have worked their way into the most remote corners of the empire. The paper notes of the Japanese intrigue in the provinces of Yunnan, Szechuan, and Szechwan, and that their protector against the nation of the west and at the same time harassing the westerners that Japan's vanguard against the Chinese.

RAVAGES OF THE WOLVES IN THE NORTH COUNTRY

Responsible For Small Fur Catch. Loss Estimated At Thousands Of Dollars. Thrilling Experiences Of Hunters With Rapacious Animals Several Hundred Horses Victims.

Mr. Albert Tate, of this city, who has spent the last four months at Lesser Slave Lake, has returned with several tales of fur.

He came down the report that the ravages of the wolves in the North Country were becoming more and more serious, and that the wolves were doing much damage to the fur catchers and the horses of the country in a most serious way. Mr. Tate made a careful study of the fur trade that came under his own observation around Lesser Slave Lake.

Devoiced After Being Trapped.

He kept a note book for a portion of the time. He puts the fur catchers at about \$4,000. These were animals that were devoured by the wolves. He says the wolves are doing much damage to the fur catchers and the horses of the country in a most serious way. Mr. Tate made a careful study of the fur trade that came under his own observation around Lesser Slave Lake.

These are but examples of the damage that could be told. If the fur catchers will be less careful, the wolves will be more numerous. The wolves will be more numerous if the fur catchers are not careful. The wolves will be more numerous if the fur catchers are not careful. The wolves will be more numerous if the fur catchers are not careful.

Tied by Wolves.

Mr. Tate tells some thrilling stories that came under his notice this winter, which will be of interest to the old school boys. The first is a story of a man named Tawitawit, son of Indian Chief Duni, who was captured by a wolf. The wolf had been following him for some time, and finally he was captured. DISTRICT NEWS

INISFREE.

Bulletin Correspondence.
The Inisfree Citizens' band, now delectably famous, promises a grand monster picnic at Birch Lake some time this summer. It is expected that there will be a large attendance. It will be the first public function of the kind ever held on the beautiful sheet of water, soon to be the most famous summer resort of Central Alberta.

Parade in Edmonton. Vegreville, Vermilion and other cities and towns are interested financially in the game, launch which the citizens of Inisfree are about to place on Birch Lake. Many cottages, it is expected, will soon be erected on the strip of land bordering on the north shore of the lake, and somewhat mile south of the town. This land the Dominion Government will donate to the town of Inisfree as a public park.

The C.N.R. is facilitating the road bed between this town and Edmonton. The gravel is secured two miles east of here.

In almost every locality tributary to Inisfree a large number of homesteads have been settled, and these districts are filling up with settlers who will become permanent residents on their homesteads. Many of them are acquiring, by purchase, adjoining lands. As this is an ideal stock country as well as being eminently suited to agricultural purposes, many settlers are taking preliminary steps in carrying on mixed farming on an extensive scale.

Since the recent warm rains, growth in this district is phenomenal. Mr. E. Jones has a field of wheat well headed and of average height. As a rule, however, crops in general, though up to last year's in point of business, are not as far forward as they were at this time last year, and in order that they shall come early to maturity a favorable season must ensue during the next month.

The hay crop is considerably heavier than that of last year, while potatoes, roots, garden products and wild fruits never looked better.

The new building of the Canadian Bank of Commerce is in course of erection, and will soon be finished. Mr. Penne is on the ground supervising the construction work.

In the surrounding neighborhood rural picnics are the order of the day. On July 11th Gilpin had a very successful day of feasting and sports, and on the 19th inst. Viking and Hartland combined to give a large picnic to their justly celebrated band, of which Mr. Hilliker, postmaster at Hartland, is the able leader. The day was one of the most beautiful that sunny Alberta can furnish, and a very large attendance greeted the promoters. J. B. Holden, M.P., for Vermilion, was present and delivered an address. The band realized from the proceeds of the day the magnificent sum of \$225. Harland and Viking are twin towns, geographically situated half a mile apart and eighty miles east of Inisfree.

menton on the G.T.P. They will unite as one with the G.T.P. town to be located there soon, and this will spring up an important northwestern centre in the C. N. R. sections of Central Alberta.

The 19th inst. among the Liberals of this district endorsing J. B. Holden for the new Dominion constituency of Victoria.

LAC STE. ANNE.

Bulletin Correspondence.
Mr. McNutt, of the Presbyterian Missionary Society, arrived two weeks ago and intends staying in the settlement about three months. He held a public service on Sunday as well as a Sunday school. Both services were fairly well attended. The service is to be held weekly.

Russell Chisholm, the new proprietor of the hotel, is doing very well, and the many pack outfits passing through are being well looked after.

The trail from St. Anne to Edmonton is in fine shape. The work of repairing and widening the road is being well done.

The farmers round about are getting their machines in working order, in anticipation of a big hay crop.

The grain crops in some places are very good at present and others are in fine shape. Potatoes are doing excellent.

The Indian treaty money was paid here last week.

It is expected that many people will visit St. Anne this week, as it is the annual pilgrimage. People come from all over the country.

The weather is perfect, as becomes our Sunny Alberta.

CLYDE.

Bulletin Correspondence.

The Union Jack Club, of Clyde, held a successful picnic at Island Lake near Clyde last Monday which was attended by the entire neighborhood.

Mr. Van Syk has fitted up a gas line launch on Island Lake.

Henry Myers has added a planing mill to his sawmill establishment.

It is estimated that in the last year 1,600,000 feet of lumber has been used for building purposes in this district.

Mr. Clyde is establishing a brick and here and has found an admirable deposit of brick clay.

Preparations are under way to erect a Presbyterian church here.

W. B. Jamieson, land guide, has located 25 homesteads here, which means 4,000 acres added to the settlement.

KNIFE RESTORES SENSE OF SMELL

Remarkable Operation By Dr. Coakley Arouses Interest Among Surgeons.

New York, July 24.—Through an operation which has caused a good deal of interest among surgeons, Frank Groden, a plumber's helper, of No. 243 West 23d street, has had his sense of smell, which left him about five years ago, fully restored.

Three days after the delicate operation was performed, the head nurse in Columbus Hospital put a carnation to the nostrils of the patient, whereupon Groden smiled, and to the surprise of those about him declared that he detected the fragrance of the flower.

Since that time his sense of smell has continued to improve until now it is almost as keen as it used to be. Dr. Cornelius G. Coakley, of No. 20 West Fifty-sixth street, performed the operation. Twenty-one years old, the young man was a sufferer from catarrh for several years.

Following that came raging headaches and an inflammation of the membrane in the nasal passages, which caused him intense suffering. As the result of the affliction his general health ran down. He went to Columbus Hospital about two weeks ago, and while there Dr. Coakley was called in to operate.

Rigorous tests were inserted in the nasal passages and extended upward toward the brain. An incision was made in the frontal bone and a piece of skull about the size of a ball of lead was removed at a point just above the left eye.

The seat of the trouble was about the olfactory bulb, and the greatest care had to be used in removing the troublesome section. It was evident to the surgeons at once that the operation had been successful, but there was no certainty until the carnation test was applied three days later.

Fifty Cars Remained in the Annual Golden Tour.

Philadelphia, July 24.—About fifty of the cars in all that remained of the 100 that started from Cleveland July 19, on the annual Golden Tour left here today for New York, the last leg of the trip. Twenty of the cars left with clean scores.

To Vote Special Grant to Cromer.

London, July 24.—In the House of Commons today Premier Campbell-Bannerman presented a Royal message proposing a special grant of £25,000 to Lord Cromer who recently resigned the post of British Agent and Consul General in Egypt in recognition of his services to that country. Mr. K. B. Rodmond, nationalist, announced his intention of opposing the voting of this sum.

Italian Minister's Arrest Causes Trouble.

Rome, July 24.—Three hundred men were landed at Messina (sic) from the battleship *Marina*. The authorities are then preparing to open with any further disorders which may arise from the removal of Nuncio Nasi, an ex-minister of public instruction, as a charge of embezzlement. Nasi is popular in society and his arrest has been followed by several demonstrations. Arrests have been made in the streets of Palermo and other wards will be sent down. The ranks of the followers of Nasi were swollen yesterday and today by the coming in of the adherents of other political leaders and the situation throughout society is causing growing apprehension.

Armed Corps Guarding Mines.

Minneapolis, Minn., July 24.—Armed guards are now patrolling many of the properties of the iron mines in this district and affected by the strike. In many instances operators have given strict orders that no strikers be allowed to come on the property and the guards and deputies have been liberally supplied with arms and ammunition, and have been instructed to use them if necessary. The mine operators are not getting out a ton of ore but the area are still doing surface work. No acts of violence have been reported today but the feeling of uneasiness is general.

Entente Finally Agreed Upon.

Tokyo, July 24.—It is understood the terms of the Russo-Japanese entente were finally agreed upon at the meeting of the elder statesmen held yesterday. The entente probably will be published shortly and simultaneously in both countries. The step will precede the publication of the commercial treaty between Russia and Japan.

30 Days For Tramping Flag.

Marquette, Mich., July 24.—Following the conviction for tramping the U. S. flag and then tramping it, James O'Keefe, a British subject, was sentenced here today to serve thirty days in jail. He was also fined \$10.

A convention of delegates representing the Canadian Society of Equity of the northern district of Alberta was held yesterday afternoon in the council chamber of the city hall. The delegates in attendance were as follows:

Mr. C. O'Brien, Independence; W. Bewie, Pleasant Prairie; M. E. Surber, Angus Ridge; E. O. Markham, New Norway; Leifdick, Otstad; Ned Wiering; C. E. Schaeff, Millet; R. H. Basse, Millet; Andrew Bell, New Accord; D. Brox, Spruce Grove; R. Beaton, Spruce Grove; R. J. Lill, New Sweden; W. G. Wilcher, Star; A. C. Hoover, Rossmore.

The business of the convention was the election of delegates to represent the Society of Equity at the Trades and Labor Congress to be held in Winnipeg in September, and to arrange for taking part in the Labor Day parade in Edmonton next Labor Day.

The delegates at the meeting yesterday decided to confer with the labor organizations in the city to change the date of the labor demonstration, as it would clash with harvest operations.

62 ASSESSMENT APPEALS FILED

Court of Revision Will Be Held This Evening in Council Chamber.

The city commissioners will hold a court of revision on assessment in the council chamber at eight o'clock this evening. Sixty-two appeals have been filed. Last year there were 520. There are several cases contributing to the decrease in the number of appeals. Last year a new system of assessing was inaugurated, which resulted in the large number of appeals.

ROLLER SKATING CARNIVAL.

The management of the Thistle rink was rewarded with a bumper attendance of skaters, skaters and spectators at their initial skating carnival last night. There were three events on the program and the number of entries was surprisingly large in all but the quarter-mile backward race.

The men's half-mile had twelve starters and it was necessary to tie it off in two heats. In the first heat, J. McKewen won, Bert Hall second, W. B. B. L. third. The second heat went to Billy Gray, with F. Johnson second. The final was won by McKewen; Johnston second and Hall third. The first lap of the final was won by McKewen in 1:30, and the second lap in 1:20.

Quarter-mile backward went to R. C. Craig, with F. Bound second. Bound led in the second lap in making the corner too short or he would likely have captured first place.

The Thistle rink measures sixteen feet to the mile. George Scott officiated in the final and the crowd of about half an hour's skating. Having met with such a favorable response on their first racing carnival, the management will likely repeat the program a couple of times a month, with the addition of cup events for ladies.

VET. INSPECTOR RESIGNS.

Dr. Pickering, veterinary inspector with respect to milk supply of the city of Edmonton, has sent in his resignation to take effect at the end of July. The commissioners are soliciting for a new inspector and a recommendation will be laid on the table at the meeting of the city council Tuesday evening next.

It is understood that friction has arisen between the veterinary inspector and the city health officer. Matters these two officers have been in dispute over the past few months. The health officer has been covering the same field, though from different standpoints, claiming no sooner or later bound to be so. Although no change is expected in his department, the health officer is the veterinary inspector's rival.

Sharpened Tools

Being a butcher that would sharpen a great deal. If you had a keen cutter, you would know that you can't get a good job done with a blunt cutter. That is the reason that the best butchers do not give you a blunt sharpened tool. They let you take the risk.

KEEN KUTTER

QUALITY TOOLS
An offer goes with every pair of quality or foreign removal. Edges are keen and tools are made of the best material. Used to sharpen tools for meat and bone. You can't get a good job done with a blunt cutter. That is the reason that the best butchers do not give you a blunt sharpened tool. They let you take the risk.
